CAR FIBREGLASS FLEXJOB BULKHEAD

MAXIMUM CONVENIENCE, MINIMUM WEIGHT

The FLEXJOB special bulkhead by Car Fibreglass makes available an access door between the individual front seats. This enables the crew to enter the load space without having to open rear or side doors, speeding deliveries. It has been designed with crew safety firmly in mind.

- Flexjob has been tested according to the norm DIN 75410-3 (securing cargo in vans)
- It provides the driver with excellent protection against forward sliding or shifting loads
- Accidental opening while under way is prevented by a lock conveniently accessible to the driver

SPEEDIER DELIVERIES AND EXTRA LOAD SECURITY

- The FLEXJOB central door measures 45 cm x125 cm, making it easy for the driver to pass from the cabin to the load compartment
- This effectively increases crew efficiency by speeding deliveries of parcels and other goods. It also enables access to tools for service personnel or other manual workers

FLEXIBLE AND EFFICIENT

- Flexjob is easily and safely fitted, using the fixing points of the original partition wall
- The sliding door saves cargo space in comparison to a normal swing type opening

OPEL CERTIFIED CONVERSIONS

Key advantages for customer:

- Opel Engineering technical check on product
- Minimum two years warranty
- Liability insurance for all damages caused by a defect of the conversion
- 12 years conversion spare part availability
